MONITOR, ALBERTA, FRIDAY, JUNE 3 1921.

NO. 22

Another Oil Rig in Monitor

4 Rigs Now in Operation

Mr. L. C. Robertson, manager of The Mud Butte Oil Fields Ltd. arrived in Monitor on May 24th to pick the sight for his rig which arrived here a few days previous.

Mr. Robertson spent several days going over his large acreage of leases, along with his Geologist. They chose their present sight for the rig. This new location is on S 1 T 34 R 5 West 4th. He was greatly impressed with the future prospects of the Monitor Oil Field. Mr. Robertson anticipates a great future for the Town of Monitor. His rig is a Diamond Drill and is capable of making great speed. He fully expects to bring in a well early in September.

American Capital Interested

Last week was the scene of great activities in the Monitor Oil Field. Mr. J. R. Talpey paid a visit to his well east of town, accompanied by Mr. F. Gilpin of Denver, Colorado, and his Geologist Mr. J. S. Irvin of the same State. They spent a full day in looking over the field and took great interest in the Mud Butte Formation, south of the town. They seemed very well pleased with the future prospects. It is learned that Mr. Talpey intends rushing the work on Well No. 1 as he left orders to erect another bunk house. That means that he will be running the tower in a very few days.

McDermid looks Around

Mr. A. M. McDermid, a well known Oil man in Alberta, was in Monitor last week looking over his holdings in the Monitor Oil Field. Mr. McDermid was very prominent in the Okotoks Field and manager of the Record Well No. 1, the Record well at Okotoks has a dandy showing of Oil but unfortunately there is a string of tools in the well. He plans on completing the well in the near future and will then arrange to bring in a rig to the Monitor Oil Field. Mr. McDermid's leases in this Field are well known and envied by other oil interests. He has the famous Butte Dome in his group. These leases were selected by Mr. J. O. Williams whom we understand has an interest with Mr. McDermid.

Mr. McDermid was so taken up with the formation and indications that he spent several days longer in the field than he planned. His opinion is that this will open up to be one of the greatest Oil fields in Alberta. He has been south of Monitor across the boundary and

links this field up with the Montana group which is now bringing in wells every day not far from this field, and has the same formation. Mr. S. E. Shipper Government Geologist linked these two fields together in 1914 before the Montana group started to produce. His report was written in 1917 for the Dominion Department of Mines.

Mr. McDermid was extremely well pleased with this field, and can see a great future for the district. He is well versed on Oil and gave the formation a close study before leaving. He hopes to return shortly.

Mr. W. A. Sinclair of Calgary spent several days last week in Monitor. Mr. Sinclair is a large lease holder in the district. He spent the best part of his time in going over his leases,

and expressed surprise at the possibilities of the field. He is proud of every acre of his leases. It was not learned what Mr. Sinclair intends doing however, but we believe his visit to the field will hasten any plans he may have in view.

Mr. Geo. E. Kennedy, prop. of the branch store of the Kennedy Drug Co. paid a short visit to Monitor last week, he was well pleased with the district in general and he is much interested in the present oil developments and holds leases in the district. Unfortunately he had a breakdown with his car and had to leave by train without being able to look over the field. He intends returning shortly with a party of Delia men who are anxious to look the possibilities of the field over.

The Imperial Oil Rig At Monitor

The Imperial Oil Co. Well No. 2 South of Monitor. During the past few months this well has been making great headway. They are now down about 1000 feet; the formation

has not been difficult, and they are using an up to date Standard Drill. Great things are expected at the location this fall. Their No. 1 rig is located North East of Monitor

West Regent Rig

AT THE LEFT

This is the famous Rotary Rig just south of Monitor. Mr. J. Dumma is in charge of this well. Mr. Dumma has secured the best Drillers obtainable and brought them in from Texas this Spring. They have every thing in smooth running order and are making great headway. Mr. Dumma expects great things by August, and if they keep up the pace they have been hitting, there is no doubt it will turn out as expected.

AT LAST !

Director of War Trophies
Ottawa, May 23 '21

Dear Sir,

In answer to your letter of the 16th inst, I beg to say that we are sending you two machine guns, all the other trophies

have been distributed.

yours truly,

A.G. DOUGHTY

Director of war trophies

The above was received by Mr. Gould, Sec. of the local branch G.W.V.A., and is a direct result of a resolution forwarded the department by the local Vets. Whoops m'dear P. S. Trench mortar coming too!

This Is The Union Demck

This is the well located on the East end of the townsite of Monitor. It is as fine a rig and as fully equipped as any rig in Alberta. Mr. Hovis is head driller. They expect to

be running tower in a few days and have been making good headway this spring. Mr. J. R. Talpey is in charge of the development work of this well.

Finally

We hope to be able at a later date to go more fully into the formation of the Monitor Oil Field. We are endeavoring to get in touch with a Geologist who has worked the field and hope to get a full report from him. It is a well know fact that in most cases the various Geologists link the North and south together. We are in the same Cretaceous formation as the Montana group, there is only an imaginary line between us—the Boundry line. The only difference is that the Americans are harder after oil than we are. The writer has been over the field several times with different geologists and in most cases they linked the

Monitor field with Birch Lake on the north and Montana on the south. As this occurred mainly before the Montana field started to produce, we've greater faith than ever in the Monitor field and in the Geologists who have visited the district.

Further Information

The President or Secretary of the Monitor Board of Trade will be only too glad to answer any inquiries re. the Oil situation in the Monitor Field.

Western Premiers' Conference To Discuss Unoccupied Land Problem

The announcement has been made in the Manitoba Legislature that Premier T. C. Norris will call a conference of the prairie province Premiers to consider what kind of uniform legislation is necessary to deal with the unoccupied land problem in Western Canada. It is also proposed that the conference consider the position of settlers now on the land with a view of finding ways and means to increase their productivity to the country.

It need not be argued that the calling of a conference for such a purpose is timely and in the national interest, for it has been well said that the economic future of the West and of Canada as a whole, depends upon the proper settlement of the unoccupied lands along existing railway lines and upon the improvement of conditions affecting the production of basic farm products.

The forthcoming conference is the outcome of various meetings held between the Western Provincial Cabinet Ministers and the officials of the Western Canada Colonization Association.

In the memorial recently presented to the Western Governments by the Managing Director of the Colonization Association, the view was clearly and strongly expressed that uniform legislation, calling for the listing of unoccupied lands at firm prices and for a reasonable period, was the keystone to the success of any genuine colonization movement.

It is idle to advance the theory that voluntary listing of unoccupied lands will suffice, for those who are in a position to judge as to the possible success of any voluntary movement are seriously impressed with the statement of General McRae that the proposed legislation is both reasonable and necessary, if the money subscribed to the Western Canada Colonization Association is to be expended in the national interest. The listing of unoccupied lands with the provincial governments will enable their Land Boards to issue maps and price lists similar to those now issued by the railway companies. Such maps and price lists will be generally distributed and will not only serve the purpose of the Western Canada Colonization Association, but as well all the land agencies throughout the provinces. In addition the necessary information will be provided to enable the Dominion Government to direct immigrants to the vacant lands near existing railway lines where homesteads are no longer available.

The unequalled endorsement given throughout the country to the proposal for provincial legislation is evidence that the people of the West are seriously anxious to effectively deal with, and find a solution for, the unoccupied land problem in the prairie provinces.

The proposed "inter-provincial Premiers' conference" will probably be held at an early date, the outcome of which will doubtless affect every community interest in the West. In the meantime every Board of Trade, Municipal Council, Farmers' Organization, and all interested public bodies and citizens, should give serious consideration to this important subject and make representations in regard thereto to their respective Governments. Some legislation undoubtedly is necessary to deal with the serious unoccupied land problem. Needless to say, every urban resident is affected by the success or failure of the farmer on the land and should therefore be vitally interested in the forthcoming Premiers' conference when agricultural conditions will be fully reviewed and an honest attempt made to find a remedy for existing ills.

Germany Lost Her Opportunity

Refused Chance to Make Voluntary Offer to Allies.

The British premier lays open the very core of the problem when he notes the change of attitude in Germany's spokesman since the first days of their terror when they came as suppliants to Foch on November 11, 1918. Today Berlin is making excuses not merely for delay, but for avoidance of her debts. "She is be-

ginning to challenge her responsibility," he says, and when her representatives "refuse to face their obligations they are cheered, and encouraged and supported."

Germany had an opportunity to make a voluntary offer, but she refused to take advantage of the offer. When forced to take action, the proposals she made were in the words of the British premier "exasperating." Today she is faced with an ultimatum backed by the rifles of Britain and the bayonets of France. If the terms are harsh Germany has only herself to blame.—The Montreal Star.

delights the taste, and causes none of the harm that often comes from tea and coffee.

"There's a Reason"

Discoverer of Radium Is Remarkable Woman

Madame Curie's Position In Scientific World Is Without Parallel In History.

Mme. Marie Curie, discoverer of radium, is in New York to receive the gift of one gram of this very valuable element from American women. The rise of this woman to the position of a leading scientist of the world is without parallel in history. The daughter of a poor but distinguished Polish scientist, she worked her way up in the field of her choice until today she bears the unique distinction of having, together with her husband, received the Nobel Prize award, being the first and only woman professor at the Sorbonne in Paris, of having refused the ribbon of the Legion of Honor because, as she put it, "I don't like decorations," of receiving the English Albert Medal from the Royal Society of Arts, the second to be granted to a woman, Queen Victoria having received the first. There were many more honors and decorations offered, but the response in almost all instances was similar to the one given to the suggestion of the Legion of Honor award.

A STUDY OF OLD AGE

Is always interesting and reveals the fact that the blood is usually thin and lacking in the strengthening properties of young folks blood. If you want to fill your blood with the fire of youth, build up your strength, restore your nerves, just use Dr. Hamilton's Pills. This wonderful medicine is a grand system regulator. Keeps the bowels in good condition, keeps the body free of waste and impurities. For young and old the use of Dr. Hamilton's Pills is recommended. 25c at all dealers or The Catarrhzone Co., Montreal.

Tuesday Is Calamity Day.

Statistics show that calamities are far more common on Tuesday than on any other day of the week. Railroad disasters, fires, street accidents—the record in each case is easily held by Tuesday.

Catarrh

Catarrh is a local disease greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier. By cleansing the blood and building up the system, HALL'S CATARRH MEDICINE restores normal conditions and allows Nature to do its work. All Druggists. Circulars free. F. J. Cheney, Co., Toledo, Ohio.

Telephone Subscribers Increase.

The new issue of the Manitoba Government telephone directory for Winnipeg shows an increase of 600 subscribers, there being 40,000 names in the latest, while in the January issue there were 39,400 listed.

WELL SATISFIED WITH BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. Her use of them leads her to believe there is no other medicine to equal them for any of the many minor ailments of childhood. Concerning them Mrs. Eugene Boivert, East Aldfield, Que., writes: "My baby was terribly constipated, but after the use of Baby's Own Tablets he is entirely well again. I am so well satisfied with the Tablets that I lose no opportunity in recommending them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Allies Will Care For German Graves

Over 400,000 Estimated to be on French Soil.

A conference will shortly be held between the representatives of the British French and Belgian War Graves Commissions and German representatives, with regard to the treatment of German graves in Allied countries and of Allied graves in Germany. It is estimated that there are well over 400,000 German graves on French soil, and under 30,000 French graves in Germany. It is hoped that a satisfactory solution of this problem may be reached at the conference.

After Three Years Of Liquid Diet, Kaiser Is Picture Of Health

"I had lived on a liquid diet for three years and my case had twice been pronounced hopeless, but Tanlac has completely overcome my stomach trouble and I eat meat, vegetables and everything else I want now," said Joseph S. Kaiser, a boiler-maker, who lives at 331 Beverley St., Winnipeg.

"My trouble dates back to a spell of the flu three years ago and from that time up until I took Tanlac I steadily went down hill. For a whole year I was so weak I couldn't put my foot out of the house and while I spent hundreds of dollars trying to get on my feet, nothing helped me a particle. I just moped around the house so weak I couldn't even lift a shovel of coal. I was suffering nearly every day from dizzy

spells, headaches and awful attacks of nervousness. My skin got yellow and I fell off until I was hardly more than a walking skeleton.

"This was the fix I was in when a friend called and persuaded me to give Tanlac a trial. He was certainly a friend in need. I improved right from the first dose. I am as sound as a dollar today, have put on twelve pounds in weight and look, so everybody tells me, the very picture of health. I feel twenty years younger and the change in me is so great that my friends who know what a desperate condition I was in see me now are simply amazed. I have never known anything in my whole life to equal it."

Tanlac is sold by leading druggists everywhere.

Barnado Boy's Success

Accumulated Fortune of \$15,000 In Twenty-Five Years.

A former Barnardo boy, a farm laborer at Bowmanville, Ontario, was killed recently in an accident while working in a barn. He came to Canada twenty-five years ago from England as a boy and up to the time of his death worked as a farm laborer. He left an estate of \$15,000; \$1,000 he bequeathed to a Bowmanville hospital; \$1,000 to the Barnardo Homes in England, and the balance to a brother in England. He came to Canada penniless, and was forty-four years of age at the time of his death.

An Oil Without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that

Bolshevists Abandon

Food Control

Order Came Too Late To Relieve Situation.

Lenine's abandonment of government control of foodstuffs came too late to relieve the situation in Bolshevik Russia, according to letters received in Berlin from a family which has lived in Petrograd throughout the Bolshevik regime.

"The conditions are worse for us than they were when food was issued on cards," one letter stated. "We are told now that we may buy food, and the peasants are told they may sell food without violating government regulations. But there are no food shops. And the peasants about Petrograd have little food to sell. They don't want paper roubles."

London's Missing.

Every year no fewer than 30,000 persons are reported missing in London alone. Some of them are never seen nor heard of again; others, after weeks or months of absence, return and take up the threads of their former life as if they had never left it.

The Deadly Fly.

The scratch of a lion's claw is at most as deadly as his bite, for he never cleans his nails, and he always carries under them rotting meat that is rank with deadly germs. Flies do the same thing on a smaller scale; and don't forget that they never wipe their feet.—Montreal Herald.

A Keen Edge For Every Shave

YOU never need shave with an un-stropped blade if you use the

VALET Auto Strop Razor.

Stropping realigns the edge of the blade and gives you a keen edge for every shave.

You must use the self-stropping VALET Auto Strop Razor.

It stropps its own blades automatically and perfectly. It gives a clean, comfortable shave. It is rinsed and wiped dry without a single part being removed.

Razor, strop and 12 blades in assortment of cases, \$5.00 the set. Fancy sets up to \$16.30.

VALET Auto-Strop Razor sharpens itself

Auto Strop Safety Razor Co., Limited, TORONTO.

Saves Axles and Harness

Wheels turn easier and axles wear longer when they are properly lubricated with Imperial Mica Axle Grease. Its powdered mica flakes form a glassy surface for grease to work over. Thus friction is reduced and wear retarded. It costs less than any other grease because it lasts twice as long.

Imperial Eureka Harness Oil keeps your harness pliable, strong and new-looking. It gives leather a rich, black, lasting finish, protects it from moisture, and adds years to its life. It is easily applied and is a big money-saver on repair bills.

Imperial Mica Axle Grease and Imperial Eureka Harness Oil are the first choice of teamsters, farmers and livestockmen. A dealer near you carries both in convenient sizes.

COMMENT

We must apologise for the
somewhat scanty "news" in
this weeks paper, and must beg
as an excuse the fact that we
have handled a rush order for
the School Fair Prize List, and
also to get our wife and family
away on to-days train for a
visit to her home in Sask-
atchewan. Incidentally we are
going on a wee trip ourselves
—to Vancouver to be exact, to
attend a mass Convention of
the publishers of weekly news-
papers throughout Canada.
This trip is made possible for
us thru the courtesy of the
courtesy of the Canadian
Pacific Railway, who have ever
done everything possible to
assist the news gathars.

Consequently, the "News"
next week will be sorrowfully
(?) marked as missing but we
trust to be back in time to get
out an issue on Jun 17th, when
we will tell you all about our
trip.

When Does Bronchial Trouble Begin To Get Serious?

First it was a little throat tickle, then a cough which grew severe. This neglected cough travels down the lungs, and it's mighty hard to treat. To treat throat trouble right, use Catarrhoxone. It heals the sore spots, allays irritation, eases the cough, makes breathing regular, clears out the phlegm and frees the nostrils from crusts and accumulations. You can prevent colds, and keep free from Catarrh and bronchial trouble by frequently using Catarrhoxone—thousands prove this every day. Sold everywhere, two months' treatment \$1.00, medium size, 50c; small size, 25c.

Enter Mother-in-Law

By Ella Randall Pearce

The letter was addressed to Mrs. Franklin Kirby and its contents enjoin secrecy. "I want to surprise Franklin," wrote that young man's mother.

"And you've surprised Franklin's wife, too." This thought was slightly tinged with bitterness, for Vera had her pre-conceived notions of mothers-in-law, and her first feeling was resentment that her happy little home was so soon to be invaded by the arch-enemy of domestic tranquility.

"Franklin's mother—of course, I expected to meet her some day. And of course, I'll do my best to get on with her. But now—Vera bent above the written page again.

"I'm coming for a visit, but if it suits me I may stay." Vera gave a gasp as she read. "The idea! Cool, I call that. Coming for a visit—and may stay. Does that mean forever? Oh, well I'll have to hang out the welcome banners, for Franklin's sake.

Vera kept her secret during the next few days; but it rankled within her heart. "You couldn't tell her anything about mothers-in-law! She knew what they were like, even the best of them.

They never thought a woman quite good enough for their precious son, and Franklin was an only child! And they never quite approved the wife's housekeeping methods, especially her cooking. And they always considered the other woman a little extravagant, to say the least; and a little too fond of worldly pleasures.

"Oh, I'm sure to come in for criticism and advice," reflected Vera. "And Franklin thinks me quite satisfactory as I am. Now he's going to have my faults pointed out. Now he's going to learn that the woman he married isn't and never can be quite as good as the mother he forsook."

Vera went about her daily tasks, conjuring up disturbing visions of what the advent of the elder Mrs. Kirby might mean. She had known Franklin but a short time before they were married; and she had not met a single member of his family. And there had been much for her to learn in the way of domestic arts and sciences.

"And now I'll be told how far from perfect I am!" Vera shook her head as she went about the task of setting the guest room in order. It was also her sewing room, and now she would have to give up her needle work for the present.

"And, if it suits her, she'll stay," moaned Vera. "I'd like to ask Franklin some questions about his mother, but I don't dare. He'd suspect. If only I knew more about her. First impressions are so important. Well,

the scene is ready, the time is come, enter mother-in-law!"

And then a taxi whirled up to the door, and the stranger guest whirled into the Kirby's living room and dropped all her bundles to embrace the waiting hostess.

"So this is Vera, little Vera. Why, you're head and shoulders above me," ran a laughing, silver-toned voice. "I'm going to take a good look at you when I get a chance. Oh, my roses—I'm dropping them all over the floor. They're for Franklin. I've brought some bon-bons for you, my dear."

The newcomer threw off her wraps and looked eagerly around.

"Franklin's home—if you knew how I've wanted to see it! Can't I look about now, every nook and corner?"

She slipped a hand childishly into Vera's clasp. "You modern young hominikers frighten me," she rippled. "You're so wise, so efficient. I never did learn to keep house." Then she laughed merrily. "But I kept a cheerful home, and that's something. I made Franklin's father happy. And I made Frank happy as long as he was with me. And now you're making him happy. I know by his letters.

She looked long and lovingly at Vera, and tenderly patted the hand she held. "Isn't Franklin wonderful?" she said with enthusiasm. "Isn't he worth doing things for?"

They stepped into the tiny blue and white kitchen. Oh, just like a toy house," exclaimed Franklin's mother. "I believe I could work here and enjoy it. But I never did care for kitchens, and cooking seems a mysterious art. I always had someone else do the cooking, and I gave my attention to the service end. I can pour tea to perfection."

Vera watched her in bewilderment as she went from room to room, talking entertainingly of many things. She was an exquisite figure, slender and light-footed, with silver blond hair fashionably arranged, bright blue eyes and a fresh pink and white complexion. Her small nose uplifted a trifle and there was a dimple in her cheek. She had an air of permanent youth. The sort of person who never grows up, thought Vera. Yet there was wisdom and shrewdness, too, in her bright eyes; and an undercurrent in her silvery tones that twanged at one's heart strings now and then.

"Such a dear sweet home. I'm going to be happy here while I stay. And I'm going to do all I can to make my visit a happy memory for you, you two dear children."

Children! Vera, already felt old and sober beside this light-footed, light-footed stranger. The elder Mrs. Kirby tilted her head charmingly, with a sparkle of mischief in her glance.

"Did my letter worry you? I always announce my visit in that way, that if I am I shall stay. But I never stay." Her dimple came into play. "I am a wanderer. When Franklin's father was living, we traveled together and so I got into gypsy ways. I have friends everywhere. So I come and visit, but I never stay."

Vera watched her vivacious guest as she arranged the roses she had brought in a cut-glass vase. A sudden tenderness crept into her heart. A thrilling longing, almost maternal in its nature, to draw that gay, roving, childish spirit within the sweet, protective circles of home life.

She went swiftly to the other woman's side and laid a caressing hand on her shoulder.

"I want you to remember, Mother Kirby," she said, and her voice quivered with newly awakened emotion. "Wherever you go, this is your home. Always. With Franklin and me. And always we shall want you to come and stay as long as you will."

Good Price For Wool Clip.

About \$400,000 was received by Southern Alberta flock owners for last year's wool clip. The total commitment through the Southern Alberta Wool Growers' Association amounted to 1,465,844 pounds, for which an average price of 28.83 cents net was obtained. This is considered a very favorable figure in view of the state of the wool market.

Tallest Man Dies.

Bernard Coyne, 24, used to be the tallest man in the world, is dead at his home near Sioux City. Coyne stood 8 feet 1-inch and weighed 300 pounds. He wore size 24 shoes.

CUTICURA HEALED PIMPLES ON FACE

Also Itchy Scalp. Hair Fell Out. Face Disfigured.

"My head began to itch and there were scales on my scalp. My hair came out badly when combed and it became very dry and thin. I also had pimples and blackheads all over my face. The pimples were hard, large, and red, and caused me to scratch and irritate them, and my face was disfigured.

"This trouble lasted about two months and I began using Cuticura Soap and Ointment. After I had used two cakes of Soap and two boxes of Ointment I was completely healed." (Signed) Miss Zona Jackson, R. 3, Goldendale, Wash.

South Africa Behind In Caring For Veterans

Canadian Delegates Return From Conference With Marshal Haig.

Marshal Haig has returned to England from South Africa, whither he had gone to preside at the empire conference of Great War Veterans. He said the British Empire Services League for ex-service men throughout the empire gave him a hearty welcome.

The two Canadian delegates to the Cape Town conference, R. B. Maxwell, of Winnipeg, Dominion president of the Great War Veterans' Association, and J. Morgan, of Toronto, representing the Army and Navy Veterans' Association, travelled back to England with Earl Haig.

Mr. Maxwell declared that South Africa was much behind the other dominions in caring for ex-service men.

Miller's Worm Powders will eradicate the worm evil that bears so heavily on children and is believed to cause many fatalities. They are an acceptable medicine to children and can be fully relied upon to clear the food channels thoroughly of these destructive parasites and restore the inflamed and painful surfaces to healthfulness. They are an excellent remedy for these evils.

More Gypsum in Canada

Large Reserve Available If Market Can Be Found.

In drilling to test the commercial possibilities of the salt beds in the Fort McMurray district of the Athabasca River country, recently, it was found that there are nearly 100 feet of anhydrite and gypsum of commercial quality at depths ranging from 500 to 600 feet, and if a market can be found for it there is a large reserve available for development. Gypsum is one of the important non-metallic minerals of Canada, and is found in several of the provinces but was not known to exist in the far north. The total production of this mineral in Canada in 1920 was valued at \$1,676,595, but the value of the deposits of the ore must run into many millions.

Refuse To Change Wheat Grades

Ruling Is a Great Disappointment To American Farmers.

United States wheat producers of the border country, and especially throughout the northwest, are keenly disappointed over a ruling just announced by Secretary of Agriculture Wallace refusing to change the federal grades on spring wheat, except in one small particular. The decision is regarded as a victory for millers, though Secretary Wallace promises a thorough investigation prior to marketing season a year hence. The Canadian grain trade is much interested in the situation.

Where Farming Pays.

Starting out to work a farm with a mortgage tacked on for more than the farm was worth was the prospect of Sam Chute, of Berwick, Nova Scotia, 25 years ago. Last year he sold 20,000 barrels of his own apples, and about 60,000 quarts of strawberries. The old mortgage is gone and forgotten, except as a memento.

"Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

IN LATER YEARS.

Copyright, 1921, by Rea Proctor McGee.

Time lies in wait for every man and will get him sooner or later if something else doesn't. When time begins to get a man the question is, how well is he prepared to resist the downward drag of years? We know this drag is sure, but we all hope to make it slow. It must be terribly disconcerting for a man to suddenly have the skids knocked out from under him and to miss the pleasure of the long, quiet twilight of life.

Not that any of us are yearning for that "quiet twilight" business, but it is the best we will have when it comes, so let's make the most of it.

It is a fact that men and women past fifty years of age, who have perfect teeth are remarkably free from chronic disease. Very few people who are past fifty years and who show advanced pyorrhea and decay of the teeth have anything like normal health.

There are people seventy to ninety who have nearly perfect teeth and their splendid health leads us to believe that there is a definite connection, in old age, between good teeth and good health.

Many old people are vigorous who have well-fitted artificial teeth, much healthier in fact than people of the same age who have advanced pyorrhea, or a number of abscessed roots, or both, in their mouths.

Good artificial teeth are far preferable to diseased natural teeth.

Artificial teeth are made from porcelain. A great deal of careful study has been put upon the shapes, colors, types and contours of porcelain teeth.

The making and fitting of plates to the mouth, and the arrangement of the teeth, both from the artistic and from the mechanical aspect, has been reduced almost to an exact science in America.

If we keep our machinery in good repair as we go, we will have no regrets when the time comes to reduce speed and jog along quietly to the end of the road.

"Sengite" Is New Explosive.

South Africa is now manufacturing a new material to take the place of nitro-glycerine explosives. It has been tested in mines and is regarded as both strong and safe. It is called sengite, the first syllable being derived from the initial letters of the words, "substitute explosive, no glycerine."

A sign has been discovered in an old tailor shop in Pompeii reading: "Creases ironed in your togas while you wait."

LETTER FROM MRS. WAKELIN

Tells Remarkable Story of Sickness and Recovery.

Toronto, Ont.—"I suffered greatly from weakness, seemed to be tired all the time, and had no ambition to do anything or go any place. My nerves were in bad shape. I could not sleep at night, and then came a breakdown. I read of Lydia E. Pinkham's Vegetable Compound in the newspapers and several of my friends advised me to use it, and it surely put new life into me. Now I am quite able to do all my own work, and I would strongly advise every suffering woman to give Lydia E. Pinkham's Vegetable Compound a trial."—Mrs. CHARLES WAKELIN, 272 Christie St., Toronto, Ont.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as that above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for more than forty years.

If there are any complications you do not understand write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

The Thrift of the French

People Have Worked and Saved Money Since the Armistice.

France was dreadfully torn by the war, terribly depleted financially by its expense. But what do we see now? Two years and a half after the armistice her people are able to invest 10,000,000,000 francs a year in bonds! There's a lesson in thrift, in saving, in resources, for the whole world! It we had anything to compare with it in America our prosperity would be the marvel of all ages, our money power almost beyond computation. But France has not been spending billions for luxury since peace came to her. She's been saving her sous while we have enjoyed scattering our dollars. And they work in France—Chicago Journal of Commerce.

MINARD'S LINIMENT

YOU can always tell the experienced motorist. He rides on DOMINION TIRES and always carries a spare DOMINION TIRE in case of emergency. He judges quality by performance. He keeps a record of tire cost. He knows that DOMINION materials and DOMINION workmanship show up in the mileage he gets in DOMINION TIRES.

There are DOMINION TIRES best suited to your car, no matter what the size or what you use it for—and you get DOMINION quality in the 30 x 3 3/4 tires as well as in the big "Royal Cord" and "Nobby" Treads for heavy cars.

From coast to coast, the best dealers in Canada carry Dominion Tires, Dominion INNER TUBES and Dominion TIRE ACCESSORIES. Ask for them.

DOMINION TIRES

ARE GOOD TIRES

Old Fort Ellis and Sioux Indians

Crossing the Plains to Fort Carlton
Summer 1875.

By O-G-E-MAS-ES (Little Clerk).

(Copyrighted)

(Continued)

The month was July and shortly after my arrival five York boats arrived from the furthest north post in the district, Lac du Brochet, situated at the northern end of that lake and semi-arctic in climate. About half the boat crews were Chippewyan Indians. It was my first meeting with this tribe and certainly a greater contrast in appearance to that of the plain Indians could not be found. They were rather short, more Asiatic in looks, many of them black-eyed, and they were not a pleasant looking lot, but by all accounts good hunters and industrious people. Brochet was a famous fur post, and as many of these men were noted hunters, they nearly all had considerable credits with the company, goods having run short at their home post. These balances ran from fifty skins to two and three hundred a man, and fortunately for us Mr. Pierre Deschambault accompanied the brigade, he having succeeded his father before him in charge of that post and, moreover, speaking Chippewyan like a native. I and a young apprentice clerk named Jack Stewart, were detailed to the trading store and here we passed many hours settling up with these Indians who appeared to be very inferior to the Crees in intelligence.

Two or three were taken into the store at one time. Mr. Deschambault being present, then goose-quills were solemnly counted out to them in accord with the number of skins to their credit. At first we tried to hurry the procedure, but soon found that the more haste the less speed with these primitive men, as once get them confused and they would have to commence at the beginning and go all over the performance. The old depot as it was called in which the trading store was situated, was over a hundred years old, built of massive square timber, which had been rafted down the Saskatchewan River. Down on the floor squatted each Chippewyan, and spread out before him were the quills, and as he kept sorting them out in various little lots, would exclaim in guttural accents his wishes. The language they spoke was very different from any of the other native languages I had heard, and sounded as if it was uttered from the back of the throat. Mr. Deschambault would answer him in the same clucking accents and so on until my patience was sorely tried, as we were very busy and working every night. But at last a list would be given us and we would fill the order. In due time they were made to settle with, also much stuff to pack for various posts, as boats had to leave at a certain time to get at their destination before freeze-up.

Madame Belanger, who had been a Miss Marion, was a lady of much refinement, very kind to us youngsters and constantly entertained us. She had a beautiful garden in which cultivated roses formed a prominent feature, and these were quite equal to anything you would find in Eastern Canada. Madame Deschambault, who had accompanied her husband to headquarters, was a gay young creature, and only too delighted to get away from the lone desolation of Lac du Brochet to the comparative civilization of Cumberland House, where dances were held several times weekly. Pierre himself detested so-called

civilization, and counted the days until he could return to his beloved north country. He was known to be possessed of a considerable private income (which he took good care of) and in an indent sent down some years before, just after he was married, there was included with his private order one very indispensable article of China, that is generally kept under the bed. Some wag changed this to one dozen and again at the Fort Garry Depot the dozen was erased and gross written in, so that no less than twelve cases containing 144 of these articles were shipped to Brochet on Pierre's private account, the freight, of course, amounting to many times the prime cost. This was the first trip he had made to Cumberland since these goods were forwarded and as the story was well known we were all agog to hear the result, but Pierre remained discreetly silent in regard to it. He, however, finally produced a bale of most beautiful beaver and otter skins. "Hello," was Factor Belanger's remark, "what is this? You well know private trade is not allowed." "Well," was his slow and cautious reply, "when kind friends sent me up so much china I let the fact be known to the Chippewyans that some entirely new vessels had just come in which were invariably used by white people, and they shortly became the rage, and the Indian family who could not serve up caribou soup in one of them was not counted amongst the elite of savagedom." There was a great laugh. Truly Pierre had one on the crowd, and credit was at once given to him for the total cost of the goods, while the company annexed the fur. A slow smile spread over his face, and he sure was not so slow, now was he? We at last had all goods ready for Lac du Brochet, Pelican Narrows and other posts; and one fine day away they went on the long and arduous journey of many portages and rapid rivers, not to mention Lac Brochet itself, which is said to be some two hundred and eighty miles long and full of islands. In fact one year in foggy weather the boat brigade having got off their direct course, which was marked by lobstersticks from island to island, got lost for a week. The whole lake is still a terra incognita and though geologists have reported valuable mineral veins it is even at this late date unexplored, like so much of the great north country.

Factor Belanger, having decided to go east for the winter on a visit to his people, the Pas was made headquarters for the district, and a Mr. Alex. Matheson (chief clerk) a very talented Scotchman, was placed in charge of the district, with myself as an assistant. Alas, all the districts accounts (covering a country extending from Grand Rapids at the mouth of the Saskatchewan River to a point midway between Brochet and Churchill, roughly speaking some seven hundred miles in length) came to the Pas for my education, but these I have mentioned in a former article.

Mr. Matheson rose to be a chief factor in the service, his last charge being Fort William. His death occurred some years ago and was greatly lamented. He was very much beloved in the service by employees and Indians alike; in fact to know him was to love him, and, personally, I owe him a deep debt of gratitude for helping to shape my future.

Disturbance In Egypt

Wires Between Cairo and Alexandria Have Been Cut.

London.—Telephone wires between Cairo and Alexandria, Egypt, have been cut, says a Central News despatch from Cairo. No news is coming from Alexandria, and disquieting rumors are current in Cairo, the despatch declares.

There was only desultory firing in the streets of Alexandria, reports received on the result of the recent riotous disturbances stated. Fifty persons, including 12 Europeans, were killed and nearly 200 persons wounded. Looters and skulkers were responsible for these disturbances.

American Company Buys B. C. Mines

Big Sum Has Been Paid For Silver Lead Mines.

Revelstoke, B.C.—The Waverley-Tangier Silver Lead Mines, situated at the head waters of Downie Creek, have been purchased by the Walters Investment Company of Spokane, Washington. The exact terms of the deal are not disclosed, but it is known that \$20,000 has been paid already and that the Walters interests have spent another \$10,000 for development work, which includes the construction of eight miles of wagon road from Albert Canyon, B.C., to the property.

Coal Freight Rate Cut

Reduced 10 Per Cent. From Alberta Mines to Prairie Provinces.

Winnipeg.—A reduction of ten per cent. in the rates on coal from the Alberta mines to the three prairie provinces is granted by the Railway Commission in a judgment according to an Ottawa dispatch to the Winnipeg Evening Free Press. The despatch says:

"The mine operators and the dealers alike co-operated in an application to the board for a 20 per cent. reduction. The board grants 10 per cent. pointing out that when there was a general increase in freight rates last fall coal did not figure to the same extent as other commodities and that with such a reduction the increase would not be more than five per cent. The order is effective June 1, and expires August 31."

Record Journey Made To Reace River

First Party Travelling By Boat Has Arrived.

Peace River, Alta.—The first party to reach Peace River by the water route from Prince George, B.C., this season, has arrived. During the course of their trip they were forced to cut through the ice on Summit Lake. A record was made as the journey was accomplished in seven canoeing days and 101 miles were made down the Peace River in one day.

The party included C. J. Vernon MacKenzie, editor of MacLean's Magazine; H. Weston Taylor, of Philadelphia; and W. V. Chambers, of Bermuda, who are gathering magazine material.

Crank Dies By Fasting.

Schma, Iowa.—Walter Oliver, son of a wealthy farmer, died on the sixtieth day of a self-imposed fast.

Oliver was a conscientious objector and was sent to the Federal penitentiary when he refused to don a uniform. Upon his return to his home here he became a recluse and later entered into a fast, declaring, "I will not take food until the Lord blesses me."

C.N. Station Dynamited.

Montreal.—Much damage was caused at Cushing on the Canadian National Railway about five miles north of Carleton, by the dynamiting of the station. It is believed that the outrage was an act of spite owing to the removal of the station facilities from one point to another. There were no persons on the premises at the time. No arrests have yet been made.

Many Injured In Fire Which Destroys Dublin Custom House

Seven Civilians and One Auxiliary Killed In Catastrophe Alleged to be Work of Sinn Fein.

Dublin.—The Dublin Customs House is in ruins and all the most important documents of the Government relating to Ireland together with papers and records, the value of which cannot be estimated, have been destroyed. This, Dublin Castle officially announces, is the work of Sinn Fein forces, which made the most formidable attack against Government property that has been engineered since the present rebellion was started.

London.—The Irish office has issued the following official report on the Customs House fire at Dublin:

"Three tenders carrying auxiliary cadets and accompanied by an armored car approached the Dublin Customs House shortly after 1 o'clock this afternoon. As they approached the building, a number of bombs were thrown at the tenders from the railway bridge, while revolver fire was opened on them from the windows of the Customs House, which was occupied by a large force of Sinn Feiners.

"The cadets dismounted under heavy fire and surrounded the Customs House which was seen to be burning. Fires from the auxiliaries and the machine gun on the armored car was poured into the windows of the Customs House, from which the rebels replied vigorously and a series of desperate conflicts followed between the crown forces and seven or eight parties of rebels who rushed from different doors of the building, making dashes and firing as they ran. The first party to emerge consisted of three men, one of whom was killed and the other two wounded.

"By this time smoke and flames were pouring from the building and the official staff, including many women, who had been held prisoners by the rebels, came flocking out with hands above their heads, waving white handkerchiefs. While the staff was making its exit, the rebels made a last sortie, this party consisting of six men, only one of whom escaped, the rest being killed or wounded.

"Some of the auxiliaries then stormed the blazing building where many of the rebels surrendered. Some of them were found to be saturated with petrol and several were probably burned to death before the crown forces entered.

"The firemen were held up at the fire station by rebels so that the fire engines did not arrive until 2 o'clock by which time the fire had taken hold of the entire building. At the conclusion of the fighting, dead and wounded rebels lay about on all sides of the building while the ground was strewn with broken glass and empty cartridge cases.

Likes British Rule

Bombay Citizen Says It Is Blessing to India.

Chicago.—The British administration has been a great blessing to the masses of India, Ruston Rustonjee, former editor of the Oriental Review, Bombay, India, told the members of the Commerce Association. He said he was not a "servile apologist" of the British Government of India, but belonged to the constitutional opposition faction until that party was captured by radicals.

To Dredge Narrows at Vancouver.

Vancouver, B.C.—The Federal Government will assist with the dredging of the first narrows at Vancouver to make the passage into the harbor safe for deep sea craft of heavy draft. A telegram from Hon. F. B. McCord, minister of public works at Ottawa, was read at a luncheon of the Vancouver Shipping Bureau, promising aid in the work.

French Demobilize Married Men.

Paris.—The Government on a favorable report from the army staff in the Rhineland, ordered demobilization of the married men and supporters of families from class of 1919. The remaining forces are considered by the Government to be adequate for all contingencies likely to arise.

Starving Soldier

Found in Forest

Had Been In The Bush About A Week.

Toronto.—A discharged British soldier with \$56 in his pocket, though his clothes were tattered and filthy, was found in the forest near Woodbridge, Ont. His memory was gone. He was famished and ate ravenously when given food. It is thought he was in the bush about a week. He was brought to Toronto and handed over to the D.S.C.R. and was placed in the military hospital as a bed patient. According to the papers he carried his name is John McQuade and he is 29 years old.

U.S. Meat Imports.

Washington.—The United States last year imported 160,000,000 pounds of meat of all kinds, the Department of Agriculture announced. About two-thirds of the imports are said to have been New Zealand lambs.

Turks Must Release British Prisoners

Constantinople.—The British naval officials here have sent a warship to Adalia to force the Turks to release eleven prisoners who were removed from the British steamer Palatina.

Restrictions On Orientals Increased

Entry of Chinese to Canada Made More Difficult.

Ottawa.—The bill to amend the Chinese Immigration Act was given a final reading without debate in the House of Commons. The bill increases restrictions on the entry of Chinese to Canada. Its main provision is one which abolishes certificates of identification for Chinese merchants and requires them to establish their bona fides to the satisfaction of the Canadian Controller of Immigration.

Will Visit Indians In North

H. A. Conroy Leaving Soon to Pay Treaty Money.

Edmonton.—On his way to Fort Providence and beyond to pay treaty money and to visit the natives of the north, H. A. Conroy, of the Department of Indian Affairs, is in Edmonton making preparations for his long journey into the north.

The Mackenzie River Indians will come in for treaty this year, according to Mr. Conroy, and the fact that treaty has never been paid them in the past attaches considerable interest to the expedition.

"CANADA APPROVED"

The legend "Canada Approved" appearing on all Clark Cans containing meat is the "Government" guarantee of purity. The Clark "Quality" Guarantee is even stronger as it assures in addition both good cooking and seasoning.

World Happenings Briefly Told

The Cunard steamship line has reopened its office in Berlin.

Grasshoppers are reported to be hatched out in the Hartney district and steps are being taken to combat the pest.

It is unofficially stated that at a British naval conference at Singapore, plans were formulated for combined action by the East Indian, China and Australian squadrons in the event of war.

Sir Edward Carson, who for many years has been leader of the Ulster forces in Parliament, has been appointed Lord of Appeal in Ordinary in succession to Baron Moulton, who died in March.

The body of eight-year-old Lilly Manning, who fell into a sewer on St. James street, Montreal, on March 10 last, was recovered in the St. Lawrence River, near the Montreal Cotton Mills at the foot of Harbor Street, Hochelaga.

The port zone at Buenos Aires, which has been closed since late in March by the boycott of the Port Laborers' Union, has been re-opened. The union laborers returned to work but only ten of the huge fleet of tied up ships accepted their services.

Hon. Geo. H. Macdonald, provincial minister of agriculture, and John Bracken, of Manitoba Agricultural College, will go to Ottawa early in June to discuss the matter of federal aid to the development of agriculture in the province with the Dominion Cabinet.

Adam Philipchuk, shoemaker, charged with stealing 700 bushels of wheat, and Mike Grigorev, farmer, charged with concealing \$5,000 of assets, were arrested at Vernon, Calif., at the request of the British Consul-General and are held for return to Perdue, Sask.

Youth and Age

Scheme To Drain Alberta Lakes

Would Mean Thousands of Acres Reclaimed For Cultivation.

Twenty-three thousand acres may be added to the cultivable area in the Morinville district, east of Edmonton, by the draining of the Manawan Lake. This is the largest of the proposed drainage schemes in Central Alberta in connection with which reconnaissance surveys are to be undertaken this summer and autumn.

Surveys are also being undertaken at Chip Lake which covers about 19,000 acres and at Lanes Lake, covering about three thousand acres in an excellent mixed farming district of Central Alberta.

If the projects are found to be practicable and to warrant reclamation operations being undertaken ditching schemes will probably be put in hand next year.

STERN REMINDERS OF RHEUMATISM

The Trouble Must Be Treated Through the Blood.

Every rheumatic sufferer should realize that rheumatism is rooted in the blood and that to get rid of it must be treated through the blood. The old belief that rheumatism was caused by cold, damp weather, is now exploded. Such weather conditions may start the pains, but it is not the cause. Liniments and outward applications may give temporary relief, but that is all they can do because they do not reach its source in the blood. The sufferer from rheumatism who experiments with outward applications is only wasting time and money in depending upon such treatment; the trouble still remains, and it is all the time becoming more firmly rooted. Treat this disease through the blood and you will soon find relief.

Dr. Williams' Pink Pills act directly on impure, weak blood; they purify and strengthen it, and so act on the cause of the rheumatism. Mr. P. J. MacPherson, R.R. No. 5, Cardigan, P.E.I., says: "About three years ago I was attacked with rheumatism. I began taking Dr. Williams' Pink Pills and soon the trouble disappeared and I am in better health than before. I also know of an old lady acquainted with me who was badly crippled with rheumatism in her arms and legs, and who suffered very much. She, too, took Dr. Williams' Pink Pills and is now able to do her housework. I tell you this in the hope it may be of benefit to some other sufferer."

You can procure Dr. Williams' Pink Pills through any dealer in medicine or they will be sent you by mail at 50 cents a box or six boxes for \$2.50 by writing direct to The Dr. Williams' Medicine Co., Brockville, Ont.

The Forest Fire Season is Here

From Five to Eight Thousand Occur Each Year Through Carelessness.

Five settlers who were recently placed on trial for causing disastrous forest fires through carelessness in "burning off" their lands gave as their excuse, "We did not know that little fires could escape from our control so quickly." This is the story of almost every forest fire in Canada. From five to eight thousand occur year by year and in most cases through thoughtlessness and indifference. When one considers that the forests of just one province, Quebec, are valued at 600 million dollars just as they stand in the "wilderness," and that timber is the one member of the family of our resources most easily and quickly destroyed, the seriousness of all forest fires is at once recognized.

In a recent statement, the Canadian Forestry Association urges precautions by campers and smokers as follows:

When in the woods, do not throw away a lighted match or tobacco.

Make your camp fires small because they cook better and are easily put out. Never build your camp fire near leaves or moss or in a dry bog or against an old log. Select a stony or gravelly soil if possible.

When leaving camp, put your fire completely out, and that means Dead Out; you can do it with a few pans of water or a shovel of earth.

Settlements, one with a population of 240, previously unknown, were discovered during the taking of Japan's first official census last fall.

Minard's Liniment Lumberman's Friend.

CASTORIA

For Infants and Children In Use For Over 30 Years

Always bears the Signature of *Dr. H. H. H. H.*

Will Plant Corn and Sunflowers.

Considerable acreage near Lethbridge will be planted to corn by former North Dakota farmers, who raised it very successfully there and feel certain that they will make a success of it here. There will also be a big addition to the area planted in sunflowers this spring.

Separation, But No Alimony

A peaceful, quiet separation, no damage done, everybody happy again—that's the situation when you divorce your corn. Try Putnam's Corn Extractor. Acts like magic, no pain, no failure, success every time. Refuse a substitute for "Putnam's," but see everywhere.

Butter Once Regarded As Medicine.

In the early Christian era butter was regarded merely as a medicine, while among the Romans the use of butter marked the distinguishing mark between the rich and the poor.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

If a woman hasn't anything else to do she borrows a recipe from her neighbor and attempts to make a cake.

The Oil of Power.—It is not claimed for Dr. Thomas' Electric Oil that it will cure every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learnt by experience.

The orafish, fully 20 feet long, lives in the open sea. When angry it raises its narrow body out of the water to a height of four or five feet.

Keep Minard's Liniment in the house

Sends Ontario Corn to Germany.

Sending seed corn from Blenheim to Germany is something new, yet it is being done. T. C. Warwick, long recognized as an authority on seed corn in Ontario, and who for a number of years has been shipping extensively to Eastern Ontario, to points in the United States and elsewhere, has received an order for seed corn from a large firm in Danzig, Germany, for experimental purposes. The corn was carefully prepared and forwarded.

TOBACCO HEART

Every Smoker Read This

Tobacco does not seem to affect all alike. Many men enjoy their smoke, live to a good old age, and apparently suffer no ill-effects from the use of the weed.

There are others though, on whose heart and nervous system tobacco produces the most serious results.

It causes palpitation, pain in the heart, and irregularity of its beat, makes the hands tremble, sets the nerves on edge, and causes shortness of breath and loss of sleep.

To counteract this demoralizing influence on the heart and nerves there is no remedy to equal Milburn's Heart and Nerve Pills.

They make the heart beat strong and steady, restore tone and vigor to the nerves, and remove all the evil results caused by the tobacco.

Mr. D. McKillop, Cokleath, N.S., writes:—I was using too much tobacco, and got so I could not sleep at night, my hands used to tremble something awful, and I suffered terrible from pains in my heart. I told a friend about it, and he advised me to get your Milburn's Heart and Nerve Pills. I took two boxes and they gave great satisfaction.

Price 50c a box at all dealers or mailed direct on receipt of price by The I. Milburn Co., Limited, Toronto, Ont.

An American silver dollar was recently found in a can of pickled tongue opened in Wales.

Nature is too busy to turn out handsome men.

Taffeta Wrap Topped With Brocade

By Marie Belmont.

Apple blossom pink is the color of the taffeta used in this engaging summer wrap. Tier upon tier the silk is arranged so that the topmost frill is much narrower than those below. They are lined with pale blue georgette, which is apparent when the wearer winds her wrap about her. The upper part is fashioned from a rich piece of brocade. In this threads of gold and silver delicately outline the green foliage and the strange looking flowers of pink and blue. One may glimpse a flash of this only occasionally, for a spreading collar of the taffeta partly conceals it.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Extirminator.

Inventor of T.N.T. Visiting Canada

Was Chief of British Chemical Department During War.

A memorable visit to Ottawa culminated in the reception given Prof. Chaim Weizmann, says the Ottawa Citizen. Prof. Weizmann, inventor of T.N.T. and head of the World Zionist Organization, was received at the home of Mrs. A. J. Freeman, 140 Somerset Street, and greeted by 500 persons, comprising the leaders of the Ottawa Jewry and some of its leading citizens.

"Dr. Weizmann made an excellent impression," says The Citizen, "fraternizing with ease and grace with all. Naturally there were many who wished to address the leader of Jewry, and to all he gave gracious audience. Tall, serious of mien, he entered into the spirit of the occasion with an easiness and a poise that endeared him to all."

"Mrs. Weizmann, too, appeared particularly engaging. She is a doctor of medicine, and rendered valuable assistance to the British cause during the war by taking command of a large hospital during this period. Thus while her husband was chief of the chemical department to the British admiralty and adviser, Mrs. Weizmann lent her energies to administering to the soldiers fighting for the empire."

Exhausted From Asthma. Many who read these words know the terrible drain upon health and strength, which comes in the train of asthmatic troubles. Many do not realize, however, that there is one remedy which will relieve this drain. Dr. J. D. Kellogg's Asthma Remedy is a check to this enervating ailment. It has a countless record of relief to its credit. It is sold almost everywhere.

A Northern Hospital.

Dr. Ings, of Calgary, will have the distinction of operating the farthest north hospital in Canada, when the building now being constructed at Fort McMurray is completed.

Quickly Conquers Constipation

Don't let constipation poison your blood and curtail your energy. If your liver and bowels don't work properly take **CARTER'S LITTLE LIVER PILLS** today and your trouble will cease. For indigestion, lack of appetite, headache and bloated skin nothing can equal them. Purely vegetable. Small Pill—Small Dose—Small Price.

Want Canadian Loganberries

Demand For Fruit Juices Increasing In States.

United States buyers are now in Vancouver bespeaking British Columbia logan berries for supplying their logan berry wine, flavoring and cider factories. Prohibition in the United States has created a great demand for fruit juices, and the juice of the logan berry has taken a foremost place.

Sure Protection For You While You Travel

You may find the water bad, some poorly cooked food may excite trouble, a draught from a car window may give you an ache or pain—a cold room or damp sheets may cause rheumatic twinges. Remember this—any pain that is caused by congestion yields rapidly to Nervine. When your stomach is sour and upset, just try the magical effect of twenty drops of Nervine in sweetened water. If cramps waken you in the dead of night, Nervine will fix those awful cramps in a hurry. Keep a 35 cent bottle of Nervine in hand always.

Wasp First Paper Maker. The first paper maker was the wasp, which always coats its nest with a thin film of paper.

MONITOR ALBERTA

19300 JHO. H.
**Mortgage Sale of Farm
Property, Near Monitor,
Alberta.**

Pursuant to the Directions of the Registrar of the North Alberta Land Registration District there will be offered for sale by B. R. Cramer, at the office of B. R. Cramer, in the Town of Monitor in the Province of Alberta, on Saturday the 18th. day of June A. D. 1921, at the hour of 2 o'clock in the afternoon, the following lands, namely:

The south west Quarter of Section twenty five (25) Township thirty-five (35) Range four (4) west of the fourth meridian in the Province of Alberta, containing by admeasurement One Hundred and Sixty (160) acres, more or less, according to Dominion Government Survey, subject to the reservations contained in the present Certificate of Title for the said lands.

The Vendors are informed that there are 160 acres of land, of which 160 acres are good arable land. There are 60 acres of the said property fenced for pasture, and a three strand wire fence and cedar and willow posts. The soil on the said property is clay loam with clay subsoil, averaging approximately 10 to 12 inches in depth. The said property is watered by three wells. The nearest railway station to the said property is Monitor a distance of eight miles. The said property is situated in a settlement of Russian English speaking people. The said property is situated 8 miles from a church and 2 miles from a school. There are the following buildings on the said property: House 14 x 26 1 story, clay material, shingle roof, Barn 29 x 34, 1 story, stone material, straw roof; Granary 12 x 14, 1 story, clay material, clay roof; Granary 12 x 24, 1 story, lumber material shingle roof. There are 100 acres of land under cultivation on the said property this year.

The Property will be sold subject to a Reserve Bid. Terms of payment will be Twenty (20) per cent cash on the date of sale, and the balance of the purchase money to be paid to Messrs. Griesbach, O'Connor & Company, within thirty days (30) thereafter, without interest, in the alternative the purchaser to give a mortgage for \$500.00, repayable in five equal annual instalments with interest at Nine (9%) per cent per annum, and the remainder of the balance within Thirty (30) days without interest.

Other Terms and Conditions and further particulars may be had from Messrs. Griesbach O'Connor and Company, Solicitors, 10072 Jasper Avenue, Edmonton, Alberta

Red Cross Notes

Postponed Red Cross meeting at Horseshoe Tomorrow night June 4th All Welcome

The organization meeting was held in the Big Hall last Wednesday afternoon, and really, it is a pity that more folks from Monitor and district were not present. Mrs. Wa-agen delivered one of the finest addresses that it has ever been our privilege to listen to, and we are really sorry for those that were so unfortunate as to have missed it. Owing to time, we are unable to give any more R. C. news here, but will follow this up in our next issue.
